CENTRAL LONDON'S GREATEST TRANSFORMATION

DAMAC Tower Nine Elms London is nestled between Vauxhall and Battersea, where a multi-billion pound investment is dramatically transforming the area into an ultra-modern residential and internationally significant business district, set to become a new centre for arts and culture in the capital.

The area is close to the Vauxhall Cross rail and bus stations as well as the Underground. In addition, the new Northern Line extension and the Crossrail project further enhance its strong transport links with the rest of London.

LONDON – THE BEST CITY TO LIVE IN

- Relax in one of the world's largest and most influential cities with a strong and secure economy
- Connect to the rest of the world with ease, thanks to the two nearby international airports – Heathrow and Gatwick; whilst the smaller Stansted and London City allow rapid internal transit
- Experience life with world-famous icons and cultural heritage on your doorstep
- Receive a world-class education in a city abundant with prestigious universities
- Benefit from an outstanding healthcare system
- Enjoy the melting pot that is one of the most ethnically diverse cities on earth, hugely popular with expats
- Elevate yourself with a high-status, prestigious address

NINE ELMS – EMBRACING THE PAST AND THE FUTURE

The DAMAC Tower Nine Elms London experience goes beyond four walls – step outside and enjoy new walkways and a beautiful public piazza in which to relax and unwind.

The Nine Elms area is already home to the New Covent Garden Market, the new US Embassy and Battersea Power Station, a cherished feature of the London skyline. It's also blessed with almost two miles of Thames river frontage, and will be lined with cafés, bars, restaurants, cultural attractions and public space as part of the planned regeneration.

What's more, a new linear park will make it one of the greenest districts on London's South Bank and will create 50 acres of new public space. All this, and a host of other historic landmarks all within a short distance.
